The 10 Step Game!

It may seem easy to follow instructions — but is it always that simple? Let’s see just how well you can follow the instructions below. This game is super fun with a group, so grab your friends, classmates, or siblings to join in.

Each player should:

- Grab a crayon and a print or braille copy of the 10 instructions (no peeking!!).
- Sit facing in the same direction as everyone else — classroom style.
- Once everyone is settled, read the instructions silently to yourselves, all the way through, before starting any of the activities listed. Who can finish first???

Instructions

1. Read all of these steps before doing anything.
2. Use the crayon to make a large X in the top right-hand corner of the paper.
3. Rip off a small piece of the lower left-hand corner of this paper.
4. Put your head down on your desk and count to ten out loud.
5. Stand up and wave to the person closest to you.
6. While still standing, say your name out loud.
7. Sit back down.
8. Tap your desk ten times.
9. Choose one of these words and say it out loud three times: “Moo!” “Oink!” “Meow!”
10. Now that you have finished reading everything carefully, don’t do any of the activities above! Just fold your hands on your desk and wait quietly while your friends finish.
